  - Shree K.P. HighSchool Harij
- 

### SKILLS

HTML,CSS

C,C++

Android Devlopment ((Flutter + AI))

CORE JAVA,JDBC,HYBERNET

Learning : SPRINGBOOT

### EXPERTISE

Communication

Web-Designin

Problem Solving

---

### PORTFOLIO WEBSITE

<https://harrrdik09.github.io/HardikPrajapati/>

### PROJECT

---

1. Developed a comprehensive website showcasing hospital facilities and detailed profiles of doctors, enhancing patient access to healthcare information.

2. **EmployeeManagementSystem(Java)**

Developed a simple Employee Management System using Java featuring secure login authentication. Enabled efficient employee data handling with intuitive options to add, remove, or display employee records through a streamlined user interface.

3. **HpTask – AI-powered Daily Task Manager (Flutter+AI)** Built a cross-platform task management app in Flutter integrating AI for smart scheduling and productivity insights. Features include intuitive daily task tracking, reminders, and a modern, user-friendly design to help users efficiently organize and complete their tasks.

---

**EXPERIENCE** Willingness to work with your team will make me great. You learn a lot, and it also gives us the experience and confidence to move forward with your own career~ Fresher's
